SAMPLE MESSAGE [TO SENATE MAJORITY LEADER GAZELKA](#)

Subject: Increase Teachers of Color Act

Dear Majority Leader Gazelka,

I am a (insert your role: student, parent, teacher, etc.). I urge you to recognize the bi-partisan support and strong hearings in the Senate for the Increase Teachers of Color Act's E12 bill (SF446) & Higher Ed bill (SF797) both led by Sen. Abeler.

Given the state's budget surplus and the importance of addressing the shortage of teachers of color that has negative implications for achievement gaps, society and the economy, I also urge you to support its full passage in the Senate this session. Please make a difference with Speaker Hortman and Gov. Walz that will benefit all Minnesotans by addressing opportunity gaps and strengthening our economy.

SAMPLE MESSAGE TO SPEAKER OF THE HOUSE HORTMAN

Subject: Increase Teachers of Color Act

Dear Speaker Hortman,

I am a (insert your role: student, parent, teacher, etc.) and I'm very concerned about the severe shortage of teachers of color and Indigenous teachers.

Given the budget surplus, PLEASE demonstrate your leadership for racial equity in education by giving Chair Davnie and Chair Bernardy budget targets and direction to propose full funding for the Increase Teachers of Color Act (E12 bill HF217-Hassan, & Higher Ed bill HF1041-Keeler).

Please also bring this Act to the House floor for a vote so it can stand out as a priority for the House's commitment to addressing racism as a public health crisis. Finally, I urge you to strongly support all policies and full funding for this essential legislation in negotiations with the Senate later this session.

SAMPLE MESSAGE [TO GOVERNOR WALZ](#)

Subject: Increase Teachers of Color Act

Dear Governor Walz,

I am a (insert your role: student, parent, teacher, etc.) and I'm very concerned about the shortage of teachers of color and American Indian teachers. Unfortunately, what you have in your own initial legislative proposals won't do enough that is needed to increase the percentage of teachers of color and Indigenous teachers in our state.

You often comment about the need to have teachers who reflect the diversity of students. While I'm glad your policy bill adopts much of the proposals in the Increase Teachers of Color Act, your first budget bills don't. Given the new forecast for a budget surplus, I urge you to adjust your budget proposals and fully fund all provisions of the Increase Teachers of Color Act (HF217/SF446 and HF1041/SF797).

Please also prioritize these policies and investments in negotiations with the Senate and House later this session.
